- Transfer from/to ACL and Finnliness vessels takes place at Antwerp Euro Terminal, Quay-1333, Belgium. This is a direct vessel-to-vessel operation.

Reliable, Fixed Schedules

a Grimaldi Group company

Ports of Call

ACL's Short Sea Service builds on our reputation for reliability on the North Atlantic. It delivers everything that you expect from ACL, from the best in customer service and reliability to weekly, fixed schedules. Look at the following advantages and see what our Short Sea Service can offer you!

Strategic Ports of Call

ACL has teamed up with Finnlines to give you the most versatile short sea services available in the market today. Our Short Sea Service provides fixed, weekly schedules between Liverpool, Antwerp, Hamburg, Bilbao, Helsinki, Kotka and St. Petersburg. These strategic European and Scandinavian ports of call keep your cargo moving without over-the-road delays.

RORO & LOLO Capabilities

Whether you have containers or oversized, hard-to-handle cargo, ACL delivers! Our unique, G4 CONRO vessels are the world's most versatile with a container capacity of 3,807 TEUs, 28,900 m² High and Heavy RORO cargo capacity and an automobile capacity of up to 1,300 vehicles. Our extensive range of modern equipment also enables us to use a creative approach to loading and transporting a wide range of cargo types.

Customer Service

ACL's customer service representatives are experienced professionals who provide the highest level of transportation support. We work together throughout Europe to keep your cargo moving safely and expeditiously from pick-up to delivery.

Earth-Friendly

ACL's Short Sea Service is an alternative, environmentally-friendly mode of transportation. It saves over-the-road emissions and cuts massive traffic congestion.
